NC Medicaid Managed Care Provider Playbook

Fact Sheet Prompt Payment

Understanding prompt payment requirements for Standard and Tailored Plans

NC Medicaid established provider payment requirements for health plans that are:

- Intended to encourage continued provider participation in the Medicaid program
- To ensure beneficiary access and support safety net providers
- To ensure continuation of current reimbursement levels using mechanisms that mitigate the risk of health plan steerage to other providers. Final capitation rates will reflect required reimbursement levels.

Health plans are required to act on additional information submitted by a provider within the required timeframe as defined below.

* Please reference section below for clean claims.

CLEAN CLAIMS

A claim submitted to a health plan by a participating provider which can be processed without obtaining additional information from the Participating Provider or their authorized representative in order to adjudicate the claim.

Pursuant to 42 CFR § 447.45(b), Clean Claim does not include a claim from a provider who is under investigation for fraud or abuse or a claim under review for medical necessity. A claim is not clean when pended for a suspended health plan or taxonomy status.

The health plan shall pay clean claims, regardless of provider contracting status. The health plan shall reimburse providers according to the prompt pay timeframes included in this fact sheet when a clean medical or pharmacy claim is received.

INTEREST AND PENALTIES

Health plans that do not pay claims within the required timeframe according to prompt pay requirements will bear interest at the annual rate of 18 percent beginning on the date following the day on which the claim should have been paid or was underpaid.

In addition to interest, a health plan shall pay the provider a penalty equal to one percent of the claim per each calendar day following the date that the claim should have been paid.

Health plans that do not pay separate directed payments to providers within five business days receipt of funds shall pay interest on late directed payments at the annual rate of 18 percent beginning on the first date that the directed payment should have been paid as specified in the contract.

In addition to the interest on the late directed payments, the health plan shall pay the provider a penalty equal to one percent of the directed payment per each calendar day following the date that the directed payment should have been paid as specified in the contract.

Interest and penalties also apply when health plans take more than 45 days to implement rate changes and reprocess claims for rate floor services. Each plan should outline, for providers, the amount of interest and penalties that should be paid based on the guidance provided by DHHS.

Providers do not have to make separate requests to the health plan for interest or penalty payments and are not required to submit another claim to collect the interest and penalty. For additional guidance on health plans interest and penalties, refer to the Previder Claims bulletin for reference and for guidance scenarios.

RECOUPMENT

Health plans shall implement fee schedule changes within 45 calendar days of notification and reprocess all impacted claims within 75 calendar days of notification for all NC Medicaid rate floor

programs. Health plans are expected to notify providers of any overpayment within the 75 calendar day period to reprocess impacted claims. Health plans have 60 calendar days to recoup payments after claim recoupment is identified.
